

## The most cost-effective communications solution for K-12

“We chose FirstClass in 1993 because it’s intuitive, easy to use, and scalable. We started with 24 schools and 300 users. Now we have 16,000 educators and administrators and 6000 students. FirstClass is inexpensive to run and maintain... so we’ve been able to put our dollars into teachers.”

**Judi Steele, Executive Director  
Clark County Public Education Foundation**

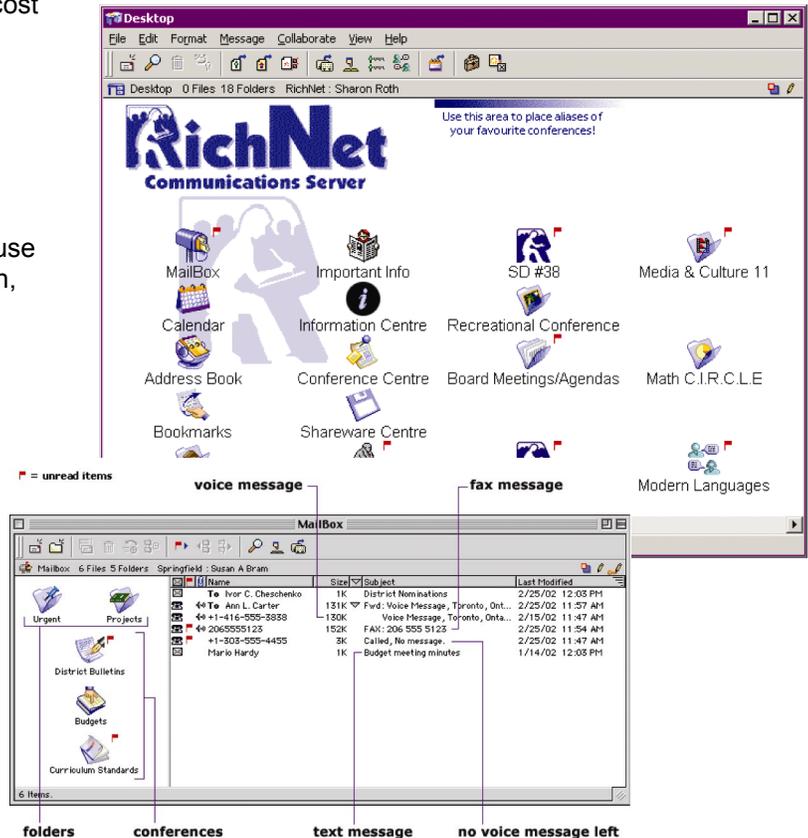

“We need to make the best use of our resources. Having one platform for both Collaborative Groupware and Unified Communications for all of our communications is key for us. FirstClass is a very cost effective solution that will integrate our online communications with our website and collaborative areas.”

**Stewart Lynch, Director of Instruction  
Technology and Information Services  
Richmond School District**

The institutions listed below are among many that use FirstClass to provide communications, collaboration, and online learning:

- Richmond School District
- Broward County School District
- Clark County Public Education Foundation
- DeKlab County School System
